IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precaution should always be followed to reduce the risk of fire, electric shock, and injury. This includes, but not limited to following:

1. Do not use this product near water. For example: near a bathtub, wash bowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool.
2. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use the telephone to report a gas leak in the vicinity of the leak.
4. Use only the power cord and batteries indicated in this manual. Do not dispose batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.
